

## Food-Safe Poly, FDA Approved

*Food Safety*

### Situation

Our client needed a reliable supplier for food-safe poly packaging. Not just anyone can provide that product and service – the facility must meet FDA specifications.

### Solution

Houston Poly invested in the FDA's FSSC 22000 certification to ensure that it had the infrastructure and processes in place to meet this customer's needs.

### Results

1. The customer received both the assurance that Houston Poly would meet the product and certification requirements, but also gained a dependable long-term supply chain partner.
2. The investment in processes and infrastructure means that Houston Poly can now serve a wider range of clients with stringent food safety requirements.

### Services

- Combo liners
- Box liners
- Poly sheeting
